# GREETING

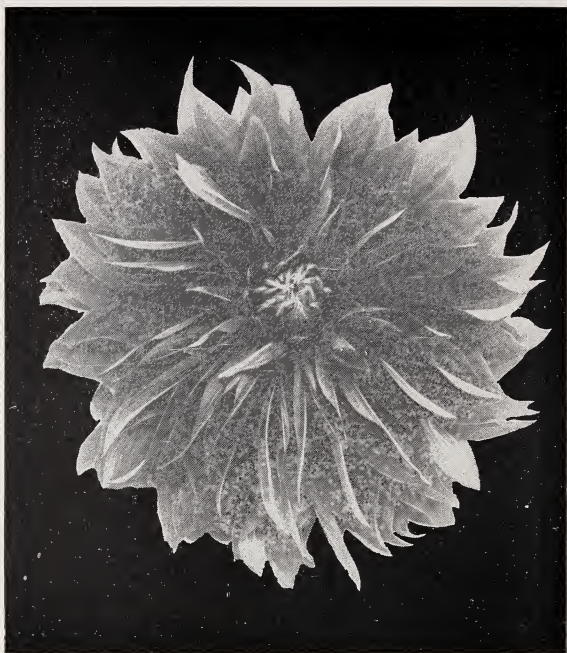

It is with just pride that I present to my customers and those interested in Dahlias, my twenty-second annual catalog. This List of up-to-date dahlias, is most complete and extremely low in prices for bulbs guaranteed to grow and true to name. But to guarantee the

under cultivation in the hands of another, is to make a dealer responsible for errors of others; not to mention freaks of weather and unfavorable seasons, improper planting, unfavorable locations and many others, which I have no control over. It is, therefore, unreasonable to ask me to be responsible for such errors. I have exercised the best of care in growing and storing my stock this season, yet errors may occur. In such a case I shall endeavor to do all I can to satisfy my customer. My terms are cash with the order and in event of my inability to fill your order no liability is attached to me but to refund the money, and no liability is acknowledged above the purchase price. Bulbs will be delivered on and after the middle of April, unless some other agreement is made. Size of bulbs have no bearing on the plant or flower produced, one is as good as the other as long as each bulb has a good eye. All tubes should be placed in sand, moss, or moist earth as soon as received to keep the eyes from drying out. Further directions on the culture of dahlias will be sent for the asking. If you cannot use this catalog, kindly hand it to some friend who you think will be interested, for which I thank you. I trust you will find my prices satisfactory and that I may receive a portion if not all of your order for this season's planting.
